

Eileen Albrecht, Senior Sales Coordinator

Grand Haven, Michigan

I became a Children's Health Advocate and a "Mom on a Mission", after successfully changing the prognosis of my son's 4 year battle with leukemia. Twenty-four years experience in professional childcare and first-hand experience in alternative and integrative health care has equipped me with valuable resources to share with the community. Juice Plus+ has given me the "vehicle" I needed to partner with daycares, schools, churches and mom's groups to help parents and their children navigate the "road to better health".
