

## **Dr Jim Hubbard**

### **Holistic Chiropractor & QNMD**

### **Monroe, Michigan**

Dr Hubbard graduated from National College of Chiropractic near Chicago in 1971. For the last 36 years he has operated a very successful holistic practice incorporating nutrition, homeopathy, herbs, emotional release work, and EAV {the same technology Dr. Smokey Santillo initially used to develop Juice Plus+}. Over the last 18 years he has also been a regular instructor for EAV technicians at Standard Enzyme of North America, headquartered in Bremen Georgia. Dr. Hubbard was part of the original concept team that brought to reality a new EAV software program that is used through out the United States today.

Dr. Hubbard was first introduced to JP+ by Dr. David Albrecht while traveling to Grand Haven Michigan to perform EAV analysis on patients of Dr Albrecht's. While on the way home from one of these trips & listening to "The Whole Truth in 15 Minuets" by Dr DuBois it all just made sense. It resonated true with past nutritional principles Dr Hubbard had learned years earlier. He decided to take JP+ himself. After being on JP+ for about 3.5 months he noted that various upper extremity joint pain from working as a Chiropractor had dissipated. He went off and back on the product two times with his pain returning when off JP+ & going away when retaking JP+. It was at this point he started recommending it to his patients, family & friends.

Dr. Hubbard now knew that JP+ worked. He knew that the concept of Network Marketing worked, but was skeptical about the business due to previous companies he had been associated with falling way short of expectations. He decided to attend the TC Boot camp to check out the business side of JP+. After attending the Kroupa TC Boot camp he realized that the people involved as distributors as well as the corporate representatives there truly had a huge desire & heart to help other people become healthier & also improve their financial situation in life.

Dr. Hubbard feels that his God given purpose in life is to help people, especially in the area of their health. Being a distributor allows him to fulfill this purpose by allowing him to help more people in more ways, than he ever could as a single Doctor in private practice. Meeting and hanging around with the upbeat, positive, purpose driven people in the JP+ business is a huge fringe benefit to being a distributor. He is thrilled to be part of the JP+ family where distributors are more than willing to help each other prosper even if there is no money to be made as a result. Just like Chiropractic became a way of life for Dr. Hubbard for 36 years---so has being involved in the JP+ VF opportunity. He is quoted as saying, "I can't imagine my life now without JP+ & the VF business, being a part of it. Most of my closest & dearest friends now are fellow distributors".
