

Joan Mangel-Ackerman,
Senior Sales Coordinator
Chamberlain,
Saskatchewan, Canada

Joan lives in a small rural town; population of approximately 95 people. Joan is married to a wonderful husband Clayton. He is a grain & cattle farmer and by trade an electrician. Their goal is to soon sell the cattle so it will free Clayton's time up in the summer to spend more time with his three girls! Joan and Clayton have two precious daughters; Jolene seven and Jazmin six. Jo Jo and Jazi are JP+ kids! They are great role models to teach other kids the value of adding JP+ to their diets!

Joan was introduced to JP+ 4 years ago by her massage therapist Tania! Joan and her girls suffered with asthma. What attracted Joan to JP+ was knowing it was totally safe especially for her young girls. Well, month by month they all became healthier! A year down the road Joan knew she needed to share the gift of health with others!

Being a Journeyman Cosmetologist for 23 years, Joan always enjoyed making people look better & feel better on the outside! Presently, her Juice Plus+ business is allowing her to sell her salon and pursue her new JP+ career and spend more time with her family! Joan is using her God-given mission to help as many individuals experience the true gift of optimal health from the "inside out." She also helps change people's wealth as well for that "Time Freedom" to spend more precious time with family & friends.

Joan feels truly blessed for her Juice Plus+ business. "It is the ultimate life-changing profession in the world! What other business can you become healthier & change other lives in the process? It is so awesome working with like-minded individuals-we are all on a huge journey together to make the world a healthier place to live. Life is precious!!"
